

CHARITYVISION IN RETROSPECT

ANNUAL REPORT

2021

**THANK YOU FOR HELPING THE
1 IN 8 PEOPLE WORLDWIDE
STRUGGLING WITH A VISION
IMPAIRMENT**

LETTER FROM THE CEO

On behalf of the entire CharityVision team (including our many doctors and nurses) I thank you for the love and support you willingly give to a total stranger on the other side of the world. However, if you were to stand beside him, or to hold her hand as she enters surgery, she would feel like family. As I receive a big hug, or a teary sentiment of gratitude I am reminded that helping those in need is such a joyous part of a meaningful life. Thank you for your example in living this principle.

The miracle of sight is ours to give. Because they have nowhere to go for help, 1 in 8 will go their entire life without seeing clearly, or at all. For a few dollars we can transform a scared and confused young child, an anxious parent, or semi-abandoned grandparent into a confident and happy member of society. Clear vision opens a world of opportunities. Please know that you are someone's answer to prayer. We need more people like you to join us - share our story with a friend.

Let's do something great.

Doug Jackson, CEO

OUR ONE MILLIONTH SURGICAL PATIENT

PERU SURGICAL

Eliana is now a more confident girl since her cataract surgery. When she was a small girl, a thorn punctured her eye when she was out tending her sheep. She explains, **"I felt helpless. I couldn't take care of my animals, paint or go to school."**

We celebrate Eliana and many children like her, who can now live their life to the fullest thanks to our donors' support and excellent local partnerships!

PAKISTAN SURGICAL

Saed has supported himself in the only profession he knows, Taxi driver. When he lost his vision due to cataracts, he could no longer work and he and his family were literally starving. Desperate, he turned to CharityVision for help and now gratefully resumed his profession and can feed his family.

He said, **"My vision problem was completely cured. I started my work again. There is no problem or difficulty in driving anymore. After this operation, my problems have been solved."**
