A VISION IMPAIRMENT &  
LACKING ACCESS TO CARE**

## LETTER FROM THE CEO

Hellen Keller once said, "The only thing worse than being blind is having sight but no vision". We combine restoring sight to the blind with our vision for charity work. We are transforming individual lives and revolutionizing how medical aid is delivered overseas. Our vision for charity is unique, yet it really works... the last year we were honored to receive the Silicone Slopes Award for Innovation in Health and Wellness.

We establish an efficient, transparent, and year-round model that empowers the local medical community. This approach fosters sustainability and ensures that the locals are engaged and empowered. Through this collaboration, we leverage their expertise, resources, and understanding of the community to achieve greater outcomes than short-term international volunteer trips... Check out our results for 2022.

We are so grateful for your generosity to those in need. This work is immensely fulfilling and enjoyable—We sincerely hope that you feel the same!

Doug Jackson, CEO

Establishing state-of-the-art ophthalmic centers is the equivalent of the HOLY GRAIL of charity work!

We provide care for people who previously never had the chance. We expand the capacity of the medical community.

**We establish a self-sustaining hub of charity work.** We empower the locals to help themselves. Talk about self-reliance and effectiveness!

Join us and sponsor a clinic that will continue to give back for years to come.

AFTER

## HAITI SURGICAL

Ginia David lived in darkness for 11 years. Going against her parent's superstition about modern medicine, she decided to get cataract surgery. This quick procedure gave her the confidence needed to thrive again! She is currently studying English and her self-esteem is higher than ever. Ginia is a beautiful woman inside and out.

**Dr. Ritza: "How do you feel today? Are you happy?"**

**Ginia: "Yes, I am thrilled today! I have been blind for 11 years. Now I can see... thanks to God and to you!"**

## AFGHANISTAN DR. SHIR

Despite the Taliban taking over the University Eye Hospital in Kabul, Afghanistan, Dr. Shir recently opened a new eye clinic in Nimruz to attend to people in need, defying the government's restrictions.

To support his efforts, CharityVision donated an A/B scan, enabling him to diagnose retinal detachment, tumors, and other disorders.

Doctors underwent training to learn how to use the equipment properly.

Dr. Shir's unwavering dedication and commitment to his patients is a true inspiration in the face of adversity.

 CharityVision

# Sight Buddie®

first see, then learn

**85% of children's learning is visual, yet 10%-12% of children worldwide struggle to see the board clearly.**

On average it costs us **less than \$10** to provide a pair of prescription glasses. With this small contribution, you can transform a child's life forever.

Last year alone, we examined over 500,000 students. Join us today and become a sponsor of our SightBuddies program.
